

IPC6 EXCURSION ROUTE 4

PERMIAN GONDWANA SEDIMENTS

Monday October 31st to Saturday November 5th

Excursion leader(s) PJT

Flight schedules for October/November 2022 may change and so the following timetable is tentative. There is a shuttle bus from Suvarnabhumi Airport (BKK) to Don Muang Airport (DMK) in Bangkok.

Monday October 31st

Excursion participants are asked to meet at Don Muang Airport (DMK) for the flight to Phuket. Air Asia Flight FD 3005 at 1230 hrs (12.30 pm) arriving Phuket International Airport (HKT) (1410 hrs) 2.10 pm. Met at Phuket Airport (HKT), bus to hotel. Stay in Phuket.

Phuket is a major tourist destination and therefore there are numerous direct international flights to Phuket International Airport (HKT) from many destinations worldwide. International visitors may prefer to fly directly to Phuket International Airport and clear customs and immigration there rather than through Bangkok, and meet the excursion at Phuket airport or at the hotel in Phuket.

Tuesday November 1st Glacimarine of Phuket Island

November 2nd Glacimarine of Phuket Island ferry to Phi Phi Island

November 3rd Glacimarine and basal Kungurian and younger Permian carbonates on Phi Phi Island. Stay Phi Phi Island.

November 4th Krabi glacimarine faunas, Permian carbonates and cave with Pleistocene mammals.

November 5th Go to Krabi Airport flight to Khon Kaen via Bangkok.
